

Enhancing Creativity, Critical Thinking & Confidence in Your Child with No Extra Time

[learn more at: pasadena.thecoderschool.com]

MEAL PREP

- Cooking is a great way to learn math - have child follow a recipe and double or halve it
- Learn about sequencing and how to think critically when making more than one dish at a time
- Decorating the table in a thematic / creative way

MEAL TIME

- Everyone shares what they are appreciative of in their life
- Everyone shares what they appreciate in person to their left

"NET" PARENTING ACTIVITIES (NO EXTRA TIME)

OUTINGS

- Read facts about local country before going out for a meal, e.g. Italy when eating pizza
- Have your child plan the outing with a set budget - teaches about money and good for math

VACATION

- Plan activities around child's interest - car factories, theater, sport events
- Have your child ask for things in the local foreign language

CAR TIME

- Practice observation skills by playing games like "I Spy" going through objects A-Z
- Listen to Books on Tape
